Bringing Culture, Community, and Creativity Together

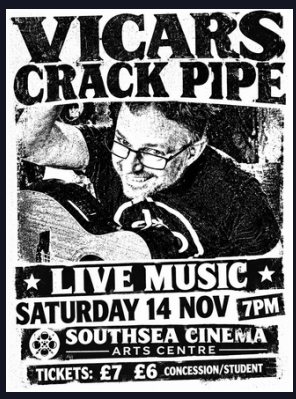

Follow us on Instagram, TikTok, and Facebook (@SouthseaCinema) for daily updates, deals, and fun.

Hello everyone and happy November!

This month we have a jam-packed schedule: our Spanish CineSupper, a Green November film programme, Recovery Festival, an art exhibition, live music, Film & Pizza, special filmmaker Q&As, and more!

Vicars Crack Pipe is a high energy band featuring Catherine Ward on fiddle, Nick Molyneux on guitar, mandolin, and vocals, and Bernard MacDonagh on button accordions, guitar, and backing vocals.

Their music spans across Irish and English trad, reggae, blues, and anything else that catches their interest.

Tickets £7 adult | £6 student | 19:00 PM – 20:30PM
Saturday 14th November 2026

Film & Pizza season is starting at our cinema! Sit back with a slice and watch a surprise film with us. Pizza is included in the ticket price (vegan pizza will also be available)! Alternatives such as cake, beer/wine or ice cream will be available if you would prefer. Our first Flim & Pizza Night is Thursday 12th November at 7PM – check our website for all the dates and timings.

Portsmouth Film Society is proud to announce its 7th annual Recovery Festival will be taking place from 20th–22nd November 2026. The festival champions mental health awareness and addiction recovery by uniting communities through film and creative expression.

This event features a diverse lineup of film screenings like Steve and Unrest, interactive creative workshops, and short film premieres from our I Am Only Human Filmmaking Course.

We are happy to present a new exhibition, 'Harmony & Sea' by artist Gill Zulu, running from 6th November to 22nd December 2026.

Gill Zulu brings together her memories of her life in Zambia and her experiences of living in Southsea through a mixture of watercolour, acrylic, and mixed media.

This November, we will be showing a series of documentaries designed to raise awareness of climate and environmental issues. These films include 'How To Live On Earth', 'We, The Hated', 'All the World is Green', and the 'People's Emergency Briefing' (free screening).

As part of this programme, we also have special guests visiting – Rich Felgate, director of We, The Hated, and Murali Ramadoss, co-producer of All the World is Green!
